Art Unit 2502

The oath or declaration is defective. A new oath or declaration in compliance with 37 C.F.R. § 1.67(a) identifying this application by its Serial Number and filing date is required. See M.P.E.P. §§ 602.01 and 602.02.

The oath or declaration is defective because:

The oath filed with the amendment of August 9, 1991 includes data that conflicts with the data presently in the file. That is, the information regarding parent cases of 06/555,426 and 06/178,107 is not of record. The first oath filed reflects data in the file.

The accuracy of the new data is being checked.

The disclosure is objected to because of the following informalities: The updated data for page 1 under "Related Applications" is objected to if it is not accurate. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --
(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1-24 are rejected under 35 U.S.C. § 102(e) as being clearly anticipated by Stolz.
